7001SOM ROUTE 3 - BUSINESS PLAN + ARTEFACT

FreshRoute Collective

Supplier-neutral cold-chain order consolidation for independent UK food SMEs

How the pilot works

FreshRoute coordination layer

cut-off • eligibility • route data • custody • temperature • exceptions • weekly review

Local / specialist suppliers

Prepare labelled, route-ready orders

→

Contracted refrigerated 3PL

Collect, keep chilled custody and deliver

→

Independent food SMEs

Order/pay suppliers; receive delivery

Pilot boundary

No speculative stock ownership • no owned fleet • no permanent warehouse

Business Model Canvas - summary

Customer segments

- Independent restaurants / cafés
- Delis / specialist retailers
- Food-serving pubs / small hotels
- Route-compatible multi-supplier firms

Value proposition

- Supplier-neutral coordination
- Fewer fragmented chilled movements
- Keep local / specialist suppliers
- Cold-chain evidence & exception control

Key partners

- Refrigerated 3PL
- Local / specialist suppliers
- Independent SMEs
- Insurance / compliance support

Revenue & cost logic

- Monthly coordination fee
- Per-drop delivery charge
- 3PL route-day cost is pivotal
- Scale only with margin headroom

Channels

- Direct local outreach
- Supplier referrals
- Hospitality / business networks
- Specialist-producer relationships

Operating controls

- Temperature & custody records
- Time / payload / window limits
- Product eligibility
- G0-G5 go/no-go gates
